Now restored to complete health after two months of Dr. Muller's Nutrient; the Scientific Food Treatment with the most marvellous records in existence.

THE MEDICAL PROFESSION INTENSELY INTERESTED.

THE LADY WHOSE PORTRAIT APPEARS now is. She called on me this week, and can helow is such an extraordinary case of recovered health; after all had failed to effect even a slight improvement, that it will well repair all whose health is impaired of whose Nervous System is not as strong as may be desired, ito read very carefully the facts given below.

MISS RUSBRIDGE ORIGINALLY WROTE for a free sample, and this is what she said of herself when first writing:

11 HAVE BEEN SUFFERING from nervous the factors of the said of herself when first writing:

12 Control of the said of the said of herself when first writing:

13 Control of the said of the said of herself when first writing:

14 Control of the said of the said of herself when first writing:

15 Control of the said of the said of herself when first writing:

16 CAN CLAIM ANTHING, but accomplished facts, and that under almost impossible conditions; voluntarily attested, include any possibility of doubt or disblief.

16 CAN CLAIM ANTHING, but accomplished facts, and that under almost impossible conditions; voluntarily attested, include any possibility of doubt or disblief.

17 Control of the said of th

menkdown for 74 nears and have not been able to Exhaustion, calk out of doors since. During that time I have tritability, seen under several Doctors and as a last several principle. taken into hospital, helpless and almost devil to the world; then kept me there three months, then sent me home a little stranger, but not able to walk, so I have been living under, difficulties, trying every remarks that kind friends have teld me of, but with very little success."

THIS WAS A DIFFICULT CASE INDEED, THIS WAS A DIFFICULT. CASE INDEED, but judging from the thousands of successful cures which have been voluntarily reported to us we were confident that Miss Rusbridge would be either completely cured, or at least would derive very considerable improvement in her health in comparatively short time, and that at but slight cost. We therefore wrote stating our belief, and Miss Rusbridge ordered a two months, treatment.

THE NEXT LETTER WE RECEIVED Was

"Levelone report of, my progress in health since taking Dr. Muller's Nutrent. I feel very grateful for hearing of such a wonderful remedy after so many jets of suffering. Everyone around is surported to see what I can hearing believe it to be my son self. It is indeed a Twentieth Century-Miracle True and Real. I hope that all sufferers will size it a triat, and shall be pleased to recommend it to all in my power."

If you suffer from

"I SHALL BE VERY
PLEASED for you to make use
of my letter in any way for the
benefit of other sufferers, or I
should be glad to ennier anybody
who might like to hear from me in
favour of so wanderful a remedy.
I am like the dead brought to life,
and on bodylu size expression.

THIS WAS GRATIFYING INDEED, from a lady was lad never seen, but who had purchased Dr. Muller's Nutrient through the post, and whose shattered Nervous System, and reined Health, had been so completely restored, as to induce her to run the risk of being inundated with hundreds and hundreds-of-personal calls and letters of inquiry entailing much work and expense in attend to: yet she cheerfully undertook. to attend to; yet she cheerfully undertook the task, proving she must have received benefit-indeed to cause such gratitude.

ON PUBLISHING MISS RUSBRIDGE'S ESTIMONY, we received the following

Letter: 67-Bruntons Road, Southampton.

Dear Sirs, I was much pleased to see Miss Rusbridge's Testimonial as to the wonders Dr. Muller's Nutrient effected in her case. I have

Fear of Insa Hysteria,

Brain Fug, Nerrous Prostration, Neuritis, Incipient Paralysis, Want of Concentration, Vertigo or D.zziness,
Morbid Fears,
Lassitude or Weakness,

DR. MULLER'S MUTRIENT WILL PERMANENTLY BUILD UP AND STRENGTHEN THE IMPOVERISHED NERVE CELLS.

If you suffer from Numbress of Lambs,

Pallor of Face, Impoverished Blood, Sluggish Liver, Weak Kidneys, Poor Circulation,

DR. MULLER'S BUTRIENT WILL SECREASE THE IMPORTANT BLOOD CORPUSCIES, ENRICH THE BLOOD AND IMPROVE ITS CIRCULATION.

RESULTING EVILS.

DR. MULLER'S NUTRIENT IS NO "CURE

TALK No. 5.

Constipation and **Biliousness**

Can be Cured and GENTLY.

WHY USE HARSH PURGATIVES?

They weaken you and thus make you feel miserable, overtax the bowels, and not only don't cure you, but are positively harmful. The proof of the efficacy of a medicine is not that it makes you uncomfortable and miserable but that it cures your trouble, makes you well. This is what CARTENS's LITTLE LIVER PILLS do, and so gently and quietly that you do not know that they are at work. Do not expect drastic action, sickness and stomach pains; none of these things follow the use of Carter's. You will know very well, and quickly, they have cured you, for your constipation will disappear, your eyes will be brighter, your work will be easier, and your pleasure more enjoyable. They will give you the clean tongue and good red blood of perfect health. They are little pills, but they cure big ills. Won't you try them to-day?

LONDON CHALLENGE

FULHAM DRAW WITH WEST HAM AT UPTON PARK,

The first round of the London F.A. Challenge Cup was continued resterday, when the winners were Woolwich Arsenal, Chelea, Brentford, Leyton, Millwall, and Clapton Orient. Fulham drew with West Ham at Upton Park. The tie between Clapton and llford was decided on Thursday, Ilford winning by 3 goals to 1.

WEST HAM LUCKY.

FOUR GOALS SHARED WITH COTTAGERS.

In sharing four goals with Fulham, in the London Challenge Cup at Upton Park yesterday, West Ham United were de-cidedly fortunate, for the Second Leaguers'

cidedly fortunate, for the Second Leaguers superiority was most marked.

It was a highly interesting game with plenty of exciting incidents, but Fulliam were much the better side, and should have won with plenty to spare.

Fulliam were the first to score, as shortly after the start Coleman beat Geggus with a fine shot. Although West Ham held their own in the subsequent play, the Craven Cottage brigade were always the more polished in their tactics.

West Ham equalised in a lucky way. It was Shen who scored the goal. Morrison centred from almost on the goal line, and "Danny" headed in. The ball first struck as upright and then bounced into the not. Fullam went away with a rush following this, and a rare scrimmage ensued round

Fulham went away with a rush following this, and a rare scrimmage ensued round the home goal ere Randall dashed in and kicked away. Then Webb made a great effort for West Ham, but Reynolds saved his final shot by falling on his knees.

The interval came without addition to the score, but shortly after the resumption the West Hum goal underwent a very narrow escape. Pearco tapped the ball goalwards, but it struck a post. Coleman obtained possession, and thrice he failed to turn it into the net.

More was seen of West Ham after this, and they secured the lead twenty minutes after, the restart through the agency of Butcher, who hundled the ball into the Fulham goal from a scrimmage.

Fulham goal from a scrimmage.

The home side did not hold their lead long, for after Geggus had saved splendidly from Coleman the latter beat him with a

left photograph shows the cap now a pyrison warders; that on the right was the cap which will be brought into use on October i.

I understand that among other alterations to be introduced are a new pattern overcoat, the substitution of black bone buttons for brase, the abolition of the wais-belt, and the fastening of the key-chain in future to the trousers.

AUXILIARY PROBLEM.

AUXILIARY PROBLEM.

An auxiliary in the Romford district has become dissatisfied with his present position, and as he believes that the Postmern's Federation cannot improve the working conditions of his class, he has decided that it is not good enough, and ask if there are any other employments in the Civil Service which would suit him and offer better prospects of advancement.

His plaint is that, hadly as auxiliary postmen are paid, their position is growing steadily more precarions, his clothing and boot allowances are devindling, and he is faced with the probability of discharge whon revisions take place.

It is true that the position of an auxiliary postman is not one to be coveted, but I cannot for the life of me suggest a new-rocation. Everything depends on a man's capacity, energy, education, initiative, and opportunitios.

Furthermore, it would be dangerous to advise a Civil servant to jump out of the firing pan into the fire—for I know of no department in which the runk and file declare that they are well paid and contented with their lot.

I do not think that my friend does justice to the Postmer's Federation. It is not as enemy of his class, in that it does not desire to exterminate the men. On the establishment of all postmen, which, it effected, would very materially improve the position of the auxiliaries.

It is also true that the federation has not been able to do much for these men, but this is pricipally due to the apathy and selfichness of the men themselves. There are about forty thousand auxiliaries in this country, but only four thousand are members of the Postmen's Federation. Under these circumstances how can the other thirty-six thousand auxiliarity pottmen expect to get something for nothing? If they were to do the right thing and join the federation they would stand a far better chance of improving their positions in the service.
